

# ARTIST'S RED BLEND

"Like a TV show or film requires different actors to bring together a story, winemakers look at each component of a blend to create the ultimate wine. With the Artist's Red Blend, the goal was to create something that was rich and profound. We worked closely with growers in warm regions that could produce the richest, softest wine and worked in each varietal to achieve the perfect balance of acidity, fruit, tannin, and alcohol. The result is like a well-cast film."
